

# WANDERING WRITERS WORKSHOPS

## Granada in Story

A Travel Writing & Storytelling Intensive  
Granada, Spain | September 21-25, 2026

Granada in Story is a five-day international intensive designed for travelers, writers, and storytellers who want to transform lived experience into crafted narrative on the page and aloud.

Led by Laura Porfirio, storyteller and educator, this workshop guides participants through the complete travel storytelling process: discovering stories in place, shaping narrative, drafting with clarity and voice, and preparing work for optional sharing in a final-night salon showcase.

This is not a retreat and not a tour. It is a structured creative intensive rooted in place, culture, and story.

### What the Week Includes

Each day blends craft and experience:

- Morning Craft Sessions
- Expert-led exploration of travel storytelling tools and narrative techniques
- Structured Writing Time
- Dedicated blocks for drafting, reflection, and revision
- Supportive Cohort Community
- Small group engagement, feedback, and shared inquiry

## **Curated Granada Excursions (Three Total)**

Each excursion is designed to generate material and deepen attentiveness to place, narrative, and context. Example excursions:

- **Alhambra Gardens & Generalife (accessible option)**  
Explore layered history, sensory detail, and architectural storytelling in one of Spain's most iconic spaces.
- **Albaicín Story Walk**  
Wander Granada's historic Moorish quarter to discover unexpected narratives in streets, plazas, and hidden viewpoints.
- **Sacromonte Perspectives Walk**  
Experience the hillside neighborhood where culture, memory, and landscape intersect — a powerful setting for field-based writing prompts.
- **Cathedral Quarter + Market Noticing Session (accessible option)**  
Spend time in Granada's city center observing daily life — voices, textures, rituals, and small moments — and translate them into scene and story.

## **Final Night Salon Showcase**

On the final evening participants are invited to share a short travel story in a welcoming salon-style event with the cohort. The emphasis is on process and presence, not performance perfection.
